Thank you for your interest in SEGS. We hope you enjoyed our summer and winter newsletters and 2014 activities, including several meetings with technical presentations and field trips to:

- Crystal River area limestone mines to observe the oldest exposed geology of Florida and collect calcite crystals and pupchen specimens
- Santa Fe River to discuss hydrogeology of the basin and observe karst features and surface water/ground water interaction by canoe with fun at famous Ginnie Springs
- Cumberland Island to observe the geology and biology of a barrier island famous for indigenous wild horses
- Alapaha River observation of mature karst features and disappearing/resurgent streams with fun at the Spirit of Suwannee Music Park and Campground

Planning is underway for our 2015 field trips. Please visit our website segs.org

The Southeastern Geological Society (SEGS) is a non-profit group of avocational and professional geologists dedicated to advancement of the geological sciences.
